Daily log

Use one row per check-in. Blank cells are fine - consistency matters more than filling every box.

Date / time	Food / appetite	Water	Urination	Weight	Meds / fluids given	Notes

HOW TO USE THIS TRACKER

- Record what you actually observe; do not guess measurements.
- Track weight on the same scale and under similar conditions when possible.
- Note meaningful changes in appetite, water intake, urination, energy, or grooming.

Chronic Kidney Disease Tracker

Weekly summary and veterinary appointment prep.

REMINDERS

- Record what you actually observe; do not guess measurements.
- Track weight on the same scale and under similar conditions when possible.
- Note meaningful changes in appetite, water intake, urination, energy, or grooming.
- Only record home fluids, blood pressure, or other measurements if your veterinarian has asked you to monitor them.
