

Steady Paws - Feline Diabetes Daily Tracker

A simple record to bring to veterinary appointments. Follow your veterinarian's monitoring and insulin plan.

Cat: _____

Week of: _____

Vet: _____

Date	Time	BG*	Insulin**	Food	Water	Litter	Ketones*	Notes / behavior

* Record blood glucose or ketone results only when your veterinary team has asked you to monitor them.

** Record the dose actually given. Do not change insulin dose unless your veterinarian has instructed you to do so.

Urgent concerns: Contact a veterinarian promptly for severe weakness, repeated vomiting, trouble breathing, collapse, seizures, or other symptoms that concern you. This tracker is not a substitute for veterinary care.
